

The background of the entire image is a complex, symmetrical pattern of fine, light-brown lines that create a sense of depth and movement, resembling stylized leaves or a marbled effect. In the center, there is a white rectangular box with a thin, dark-brown border. Inside this box, the word "LUXOR" is written in a large, bold, serif font, with a registered trademark symbol (®) to its upper right. Below the brand name, the text "ACRYLIC UV SOLID SURFACE" is written in a smaller, all-caps, sans-serif font.

## Use and care guidelines

### **Cleaning kitchen countertops and other Luxor® surfaces.**

Luxor® is a durable and repairable product that will last for many years with simple care. Follow these instructions to preserve your Luxor® solid surface products.

**Everyday Care :** General cleaning of your Luxor® solid surfaces can be done by wiping the surface with a damp cloth or sponge, then dry with soft cloth or paper towels to prevent spotting; especially in areas with hard water.

**Basic Stains :** Clean with an ammonia-based product such as household glass cleaner or commercially available non-abrasive spray-on cleaners for solid surface products. Wipe dry with a soft cloth or paper towels to prevent spotting.

**Stubborn Stain and Minor Scratches :** There are over 60 colors available in Luxor® and each color can be supplied with a different type of finish by Luxor® certified fabricator installer. Dark colors in countertop surfaces and particularly dark colors that have been finished to a gloss, like anything else, will potentially show signs of use, such as scratches & soap residue, more readily than light colored solid surface materials. Therefore, gloss finish generally requires additional maintenance and care to retain its original luster. Different cleaning techniques are required to remove stubborn stains and minor scratches depending on the type of finish and color as detailed in the following instructions: (Note : please contact your fabricator installer if you are uncertain which type of finish is applied to your Luxor® solid surfaces. DO NOT attempt to repair deep scratches, chips or burns, contact a certified Luxor® fabricator installer.

**Matt Finish** is the standard finish delivered by your certified fabricator installer. It is a low or no-sheen finish and is recommended high-use areas. Scrub in a small circular motion with a wet sponge & an abrasive cleanser such as Soft Scrub®. Darker colors tend to require more attention than lighter colors.

**Satin Finish** has a slightly higher sheen than matt & requires more attention depending on frequency of use & area of application. Lightly scrub surface in a small circular motion with a wet sponge and an abrasive cleanser such as Soft Scrub® over stain or scratch.

**Darker Colors:** Darker Colors tend to require more attention than lighter colors. Scrubbing too aggressively may actually reduce the gloss level.

**Gloss Finish :** as a higher & reflective sheen that requires additional care and maintenance. It is important to note that a gloss finish, especially on a dark color, will require more care than a Matt Satin finish. Therefore be, sure not to apply the same method or process recommended for a matt satin when caring for a gloss finish. Repeat the procedure shown below - If stain persists, contact your certified fabricator installer for assistance.

DO NOT USE ABRASIVE CLEANSERS AND PADS OF ANY TYPE ON A GLOSS FINISH: PLEASE CONTACT YOUR LUXOR® RETAILER DEALER FOR MORE INFORMATION.

Spray a non-abrasive product such as Mr. Muscle over stain and wait for a couple of minutes. Then, scrub in a small circular motion circular motion with a wet sponge.

**Darker Colors :** Darker Colors tend to require more attention than lighter colors. Scrubbing too aggressively may actually reduce the gloss level.

Do not use abrasive cleansers, pads or steel wool. After completing the above procedure, rinse with clear water and wipe dry a soft cloth or paper towels to prevent spotting. To enhance the visual colour clarity & hide minor scuffs, apply Countertop Magic cleanser (available at any hardware store or supermarket & wipe away excess with a soft cloth.

**Preventing Damage:** Minor damage that may accidentally occur is most often repairable by a Luxor® certified fabricator installer or repair expert. However, be sure follow these guidelines to prevent damage to your Luxor® surface.

**Heat :** Luxor® solid surfaces have excellent heat resistant properties compared to other countertop materials. However, placing hot pans, as well as some heat-generating appliances such as electric grills or deep- fryers, can damage the surface. Always use a hot pad or a trivet with rubber feet to protect Luxor®. Avoid subjecting Luxor® solid surfaces to extreme hot temperatures.

**Chemical :** Avoid exposing Luxor® solid surfaces such as paint removers, acetone, and oven cleaners. Surfaces to exposed to these strong chemicals should be promptly washed with water water ; contact may cause spots that may require extensive repairs.

Remove nail polish with a non- acetone-based nail polish remover and wash with water.

**Scratches :** Never cut or chop directly on a Luxor® solid surfaces, always use a cutting chopping board.

**Fractures :** Avoid standing on counter tops or dropping heavy objects on the surface.

**Note :** Gloss reduction, scratching, and staining on solid surface incurred over time due to use is NOT a manufacturing defect but is considered normal wear and tear - The foregoing is NOT covered under the Luxor® Limited Warranty. However, the countertop can be re-sanded & re-finished periodically if you so choose- you will be charged the standard hourly service rate. If your Luxor® product is accidentally nicked or deeply scratched, please contact your retailer dealer or Luxor® certified fabricator installer for advice about the most effective method of repair - most repairs are relatively quick and simple when performed by an experienced professional (service charge may apply).

For more detailed information, please contact your Luxor® dealer or visit us at [www.durlax.com](http://www.durlax.com).
